

# HG "super remover"

PROFESSIONAL, EXTREMELY STRONG CLEANER FOR REAL PROBLEM STAINS, SUCH AS REMNANTS OF OD POLISH OR HEAVY STUBBORN INGRAINED DIRT.

- APPLICATION

For tiles and natural stones

- DIRECTIONS FOR USE

Dilute HG "super remover" 1:10 (1 litre to 10 litres of water). Using a sponge or mop, apply the solution liberally to the surface to be treated. Scrub the surface well, with a scrubbing machine if necessary. Allow to soak in for a few minutes and scrub again. Then remove the HG "super remover" from the surface with a mop. Wring out and rinse the mop at regular intervals. If necessary use a water vacuum cleaner. Finally rinse twice with clean water. If necessary, repeat the treatment. In the case of very stubborn dirt, use a solution of 1:4.

- PRODUCT INFORMATION

Properties	: high concentrated
Density	: approx. 1.05 g/ml
pH	: approx.13.8
Coverage	: 35 - 70 m <sup>2</sup>
Compounds	: nonionics, sodium hydroxide, water, phosphate and solvents.

- PACKAGING : 6 x 1 l  
4 x 5 l

- ATTENTION

Take care not to splash paintwork, wood metal, carpets etc. The surroundings of the surface to be treated must be well taped over with masking tape, for example. If a white haze remains on the floor after treatment, HG "super remover" has not been properly rinsed off. Rinsing again with clean water will remove this haze. With calciferous natural stone, crystallisation will also make the white haze disappear.

- PRECAUTIONS

**R36/38**- Irritating to eyes and skin. **S2**- Keep out of the reach of children.  
**S25**- Avoid contact with eyes. **S26**- In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. **S46**- If swallowed, seek medical advice immediately and show this container or label. **S64**- If swallowed, rinse mouth with water (only if the person is conscious).
